HAWAIIAN GAZETTE, TUESDAY, APRIL 10, 1906. —SEMI-WEEKLY.

WHOLE 2788

CARTER WILL BE HOME IN THE FALL

Will Go and See the President Before He Comes Back.

The date for the return of Governor Carter to Hawaii has been postponed, on the advice of his physician, until the latter part of September.

"I have not heard from the Governor lately," said Dr. Judd, "but when I did hear from him last he was not gaining as fast as I would have liked to have him. When will he return? He spoke, then, of returning in May, but I wrote him that he must not think of doing anything of the kind. And I told him to set his return not earlier than the latter part of September. It is important that he should be in good condition when he comes back. He will find lots of work to do. Then, there is the coming session of the Legislature, which is apt to give him a strenuous time. And he should have the strength to face that."

"Where is the Governor now? He was at Arrowhead Springs, but I suppose he is at the Green in Pasadena, now."

From other sources it is learned that the Governor has set the date for his return in September, and that he will go to Washington before coming home. There is no thought to be anything serious in the fact of the Governor not communicating with his physician. In fact, that failure to write to Dr. Judd is regarded as rather a good sign, than otherwise. When a man is well, the last person he thinks of communicating with is his physician. He saves the doctor for sick times.

When Governor Carter left here it was stated that he had no notion of going to Washington, nor of doing anything else but recovering his health, but it was thought at the time that the Governor nevertheless would be pretty certain to visit the President before coming home. The opportunity of being on the mainland would not be one that would be likely to be overlooked. The Governor has said distinctly, since he went to California, that he had no purpose of resigning, and the statement was cabled down here, but the

KNUDSEN MAY BE COMING MAN

Kauai Statesman is Now Spoken of for the Delegateship.

While the spoilsman are devising schemes of chicanery by which they can get control of the affairs of the county, and so the spending of the county money, thoughtful people are beginning to wonder what is to be doing this fall in the matter of Territorial politics. For the spoilsman, of course, there is nothing more important than the handling of the money that is paid into the hands of the voters. They are out for the stuff—that is, the spoilsman are, and a somewhat large percentage of the voters, too—and the good of the public can go hang. Indeed, the good of the public is not reconcilable at all with the realization of their schemes of profit.

Wherefore, the Sheriff of Oahu county strengthens his machine by taking away more of Sam Johnson's lunas, and by searching for jobs for thugs and plug-uglies, and the little Lane Sunday school chaps meet in dark places when they think nobody is noticing, and all the devious ways of the schemers who strive to keep the doings of their left hands beyond the knowledge of their right are trod without ceasing. But there be thoughtful men who do have the good of the Territory at heart, and it is these who are beginning to cast about for fit material for legislative use in what may be the most important session ever held in the history of the Territory.

KNUDSEN FOR DELEGATE.

There is much to be done by the next legislature—and more, it may be, not to be done. Men who can do, and who can refuse to do, are wanted. They must have backbone, and convictions with the courage of them. And while everybody knows that there are such men here, they have been rather more noted for their absence from than for their presence in the legislature since annexation.

Then, too, there is the fight for Delegate—and that is still an open fight, despite the Maui declaration for Kuhio.

ERUPTION OF VESUVIUS SUBSIDING

Nevertheless, There Has Been Something Like a Reign of Terror in Naples and About the Base of the Mountain. One Hundred and Fifty Thousand Persons Having Been Driven From Their Homes and Five Hundred Having Lost Their Lives as a Result of the Eruption—Several Towns and Villages Have Been Destroyed and Others Have Been Abandoned—The King and Queen of Italy at Naples.

(Associated Press Cablegrams.)

NAPLES, April 10.—The eruption of Vesuvius shows signs of subsidence, but 150,000 people have been forced to take flight from their homes by the threat of destruction from the volcano.

All trains running out of the city are delayed by cinders on the railway tracks.

Five hundred persons are reported dead, of whom two hundred perished in the collapse of the church of San Giuseppe.

The afternoon cablegrams yesterday were of a much more alarming character. It was said that the city of Naples itself was threatened by the eruption, that vessels had been forced to return to the port by reason of volcanic activity at sea, and that the King and Queen of Italy had arrived to give aid in the relief work.

According to the same cablegrams, the city of Caserta, with 35,000 people, was endangered, and the town of Nola, having 15,000 people, was being buried under a shower of volcanic ashes. As the ruins show, the destruction of Pompeii was due to swift showers of volcanic ashes.

A fresh crater had opened near Boscotrecas, which place the cables said had already been destroyed by the eruption. The subsidence of the violence of the activity of the crater will only be a lessening, if the past performance of Vesuvius goes for anything. The history of Vesuvius, as far as there is a record of it, is interesting. The volcano had been quiescent for unnumbered centuries, when in the year seventy-nine it suddenly burst into violent activity, this being preceded by violent earthquake shocks, and destroyed Pompeii, Herculaneum and Strabiae. There is no evidence that any lava was emitted at this time.

For nearly fifteen hundred years then the volcano was feebly active, having occasional eruptions but none of them violent. In 1631 there was another violent eruption, the volcano throwing out great masses of lava and clouds of ashes. Eighteen thousand persons are said to have lost their lives at that time, and since then Vesuvius has never relapsed into a condition of absolute quiescence. There have, however, been few destructive eruptions, although there have been many periods of alarming activity.

THE KING OF ITALY AND HIS CONSORT.

GET NEW ARRIVALS

Labor Agents Get Few of Older Jap Residents.

The quest for Japanese laborers in Hawaii to go to Seattle so that agents may make an extra dollar or two per head did not pan out very well as far as the present trip of the S. S. Olympia is concerned. The number secured in and about Honolulu was about two hundred less than anticipated, and the greater number secured were recruited from the new arrivals from Japan. In fact, about 90 per cent, so it is said, were arrivals on the America Maru, and they were therefore in Honolulu hardly two weeks.

It is expected that the Olympia may secure a good-sized crowd at Hilo, for the town is said to have an overflow of Japs from various plantations who do not seem to care to work all the time.

That was the case during the first visit of the Olympia to Honolulu a few weeks ago. She was able to pick up a pretty good crowd from the loafers in town. This trip, there were not so many to choose from and the Japanese agents had to find recruits from the new arrivals from Japan.

It is a singular thing that most of the Japanese immigrants arriving on the America Maru had their baggage tagged to the Kanjiro Hotel, conducted by K. Haga. The latter is well known as a labor or immigration agent, and is said to be acting in conjunction with the parties who have been commissioned to secure thousands of Japs for the Northwest.

SHERMAN HERE SUNDAY.

On Sunday next the army transport Sherman is expected here from Manila via Nagasaki. The vessel may be in port about three days as she has about 800 tons of coal to leave here for the Quartermaster's Department.

The Sheridan is to leave San Francisco for Honolulu, Guam and Manila on April 16 and should arrive here about April 23 or 24. She will take on coal here. The Sheridan carries troops. She will also carry a big force of marines for Cavite.

The animal and cargo transport Dix may arrive from Manila via Nagasaki on April 23. She has about 4400 tons of coal for the Quartermaster's Department at this place.

THE BARK ALBERT IS BLOWN TO SOUTHWARD

(Associated Press Cablegram.)

SAN FRANCISCO, April 10.—The bark Albert has arrived at this port. She reached the Farallones on March 31, but was then driven far to the southward by heavy gales.

The bark Albert, Captain Turner, sailed from Hilo for San Francisco on March 16. It will be seen that she made a quick trip to the Coast, meeting the storm that blew her out of her course when in sight of the Golden Gate.

SESSION OF DEMOCRATS

A meeting of the Democratic Territorial Committee was held last evening in the office of Chairman W. A. Kinney, Judd building, at which plans for the coming campaign were discussed. A committee was appointed to confer with the County Committee to arrange some definite plan of action when it is time to open the campaign. Chairman Kinney stated last night after the meeting that the discussion was merely general and no definite plans laid, as it was yet too early to figure on the same. However, he said that there was a good deal of reorganizing to be done and preparations made so that when the campaign really opens the details will not have to be worked out.

"The whole thing is pretty well disorganized," he said, "and that means a whole lot of preliminary work now."

EMMA SPRECKELS WATSON WILL BE MARRIED AGAIN

SAN FRANCISCO, April 10.—The engagement is announced of Mrs. Emma Spreckels Watson, to John W. Ferris, of San Francisco, a civil engineer.

Mrs. Watson will be well remembered by many people of Honolulu. Also, the circumstances attendant upon her first marriage to Thomas Watson, an Englishman, will be recalled by this announcement of her engagement in marriage for the second time. Her marriage to Watson, who had theretofore been a friend of the family and who was many years her senior, estranged her from her parents, and after a bitter quarrel Mr. and Mrs. Watson took up their residence in England, where Mr. Watson died.

After his death Mrs. Watson returned to her parents and to the magnificent mansion on Van Ness avenue, which it was reported Claus Spreckels had built for his daughter. She has resided in San Francisco ever since.

SHERMAN OF NEW YORK HEADS CAMPAIGN COMMITTEE

WASHINGTON, April 10.—James S. Sherman has been elected Chairman of the Republican Congressional Campaign Committee.

Mr. Sherman represents the twenty-seventh New York district, composed of Herkimer and Oneida counties, and has served in every term of Congress since the Fiftyeth. He is Chairman of the Committee on Indian Affairs, and a member of the Industrial Arts and Expositions and of the Interstate and Foreign Commerce Committees.

DOWIE DENOUNCES HIS WIFE.

ST. LOUIS, Mo., April 10.—Dowie has denounced his wife as unfaithful to him.

GRAVES OF CONFEDERATES ARE ORDERED DECORATED

(Associated Press Cablegram.)

WASHINGTON, April 10.—Commander Tanner of the Grand Army has ordered that the graves of the Confederate dead be decorated.

"CORPORAL" JAMES TANNER.

Evidently, the cablegram means that the Commander has issued an order that the graves of the Confederate dead shall be decorated on Decoration Day, when that honor is paid also to the memory of the boys who wore the blue. Corporal James Tanner, Commander of the Grand Army, is a man of note in the organization, whose war record is familiar to most Americans. This official action marks the last step in the removal of any drops of bitterness that may have remained in the breasts of the foes who learned to respect each other in the fire of battle.
